

## **Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, Human Values into the Curriculum**

In order to integrate the cross cutting issues relevant to gender, environment and sustainability, human values and professional ethics, institute has included different types of courses in the curriculum, some enhance professional competencies while others aim to inculcate general competencies like social values, human values, environment sensitivity etc., thereby leading to the holistic development of students.

The courses on Ethics, Human Values, Human Resources & Organizational Behaviour and Community Outreach, Environmental Studies are embedded in the curriculum of all programmes.

### **1. Gender Sensitivity**

Institute emphasizes on gender equality & Institute included topic in the syllabus and it is accomplished through theory and practice. Institute has Sexual Harassment Committee and has been functioning. The cell aims to enable lady faculty and girl students to explore their imminent potential in all aspects, providing a congenial working environment for them. Women farmers across the States are empowered by conducting training training every year based on sugarcane cultivation. Institute has 45.83% of girl students. Different programmes such as Women day celebration, Women empowerment activities, women mentoring are practiced by the faculties & students.

### **2. Human Values and Professional Ethics**

Course Human rights topic have been covered in the syllabus. In view of Social development activities like organizing blood donation camps, health check-up camps, hygiene and cleaning programmes, environment awareness workshop, workshops on social issues, etc. is conducted by the Institute. All the activities are monitored by faculty in-charge & Principal in our Institute.

As an integral part of student engagement in social activities during their programme of study, Institute give opportunity to students to participate in different workshop & training programmes. It aims at inculcating values, ethics and socially responsible qualities.

### **3. Environment & sustainability**

A M.Sc programme on Environmental Sciences is operated by the Institute under which different activities related to environment issues conducted. Also, Institute have included different topics in the syllabus of the M.Sc. programme in Wine, Brewing & Alcohol Technology related to environment & sustainability. In order to sensitize students about the environment and sustainability issues, a number of activities such as seminars, workshops, guest lectures, industry visits and field excursions were organized for students of all programmes. Different days are celebrated every year, where students actively participate. Workshops and seminars on various aspects of environment sustainability are organized periodically.
