Criterion 7 - Institutional Values and Best Practices

7.3.1 Institutional Distinctiveness

VSI has played a stellar role in socio-economic development of rural Maharashtra and upliftment sugar cane farmers as well as technical personnel in the sugar industry

VSI is recognized as a Scientific and Industrial Research Organization (SIRO) by DST. The Institute has four laboratories accredited by NABL under ISO17025:2017 equipped with sophisticated instruments for analytical support in research and consultancy. The Institute is also accredited by QCI-NABET for preparing Environmental Impact Assessment reports acceptable to Ministry of Environment Forests & Climate Change. It is recognised as an Environmental Auditor by Maharashtra Pollution Control Board. The Institute is also designated as a third-party inspection of Grossly Polluting Industries (GPI's) in the Ganga and Yamuna basin by the Central Pollution Control Board.

The faculty of the Institute are involved in research and industrial consultancy in addition to teaching. This experience helps in improving the quality of teaching and the students are benefitted. Excellent infrastructure facilities and live projects offer opportunities for hands on training for the students. Employers prefer such students over others.
