Subject: In-plant training for M. Sc. (Wine, Brewing & Alcohol Technology) course student in your industry

Dear Sir,

I have a pleasure to introduce to you VASANTDADA SUGAR INSTITUTE, a unique organization promoted and funded by cooperative sugar factories in the State of Maharashtra. VSI is engaged in Academic, Research & Development and Consultancy activities related to sugarcane cultivation, manufacture of sugar and allied by-products and pollution control. There are over 160 sugar factories and 80 distilleries attached to this institute to whom we render all kind of technical services.

The institute conducts various post graduate degree and diploma courses intended towards human resource development in the field of sugar, alcohol, alcoholic beverages and allied industry. VSI has started M. Sc. (Wine, Brewing & Alcohol Technology) course affiliated to the Savitribai Phule Pune University from the academic year 2011. The core subjects covers in-depth various aspects of alcohol technology including fermentation, distillation, downstream effluent treatment systems, maturation, blending etc.

The core subjects are supported by other relevant subjects such as (i) Viticulture (ii) Microbiology of Alcohol, Beer & Wine (iii) Biochemistry of Alcohol, Beer & Wine (iv) Chemical Engineering (v) Plant Engineering (vi) Instrumentation (vii) Industrial Waste Management (viii) Business Management etc.

Principal

Vasantdada Sugar Institute
Manjari (Bk.), Tal. Haveli,
Dist. Pune - 412 307

Reply to be sent on the name of Institute and not on Individual's name.

The course is divided in four academic semesters and one in-plant training programme. Emphasis is given on imparting theoretical knowledge as well as practical aspects of brewing, wine making, distilling and bottling unit operations. Eminent scientists, technologists & consultants are invited to deliver lectures on specialized topics.

The Department of Alcohol Technology & Biofuels has excellent infrastructure, sophisticated instruments, well-equipped practical laboratories and qualified and experienced faculty to undertake above-mentioned academic activities. Excellent library and hostel accommodation facilities are also available at VSI campus.

As per syllabus of M.Sc. (WBAT) course, in the IVth semester students have three compulsory subjects and one optional subject depending on their choice in which they wish to pursue their future career. The students are required to undergo in-plant training of three months duration which will start from 1st February to 30th April, 2024. Based on their in-plant training, the students have to submit the in-plant training report to VSI. On the basis of the in-plant training and report, the viva-voce examination is scheduled in the month of May, 2024.

We are looking out for possibilities for in-plant training for our students in reputed industries in the country. Your being one of the reputed unit, we would appreciate if you can give permission for three months in-plant training for the M. Sc. (Wine, Brewing & Alcohol Technology) course student Ketan Sambhaji Harpale. Please treat this as important and accord your consent. If you need any information about VSI, please be free to contact us or visit us at www.vsisugar.com. We would be grateful to you if you can acknowledge the receipt of this letter and keep our address on your mailing list.

Thanking you,

Yours sincerely,

Based on their in-plant training, the students have to submit the in-plant training report to VSI. On the basis of the in-plant training and report, the viva-voce examination is scheduled in the month of May, 2024.

We are looking out for possibilities for in-plant training for our students in reputed industries in the country. Your being one of the reputed unit, we would appreciate if you can give permission for three months in-plant training for the M.Sc. (Wine, Brewing & Alcohol Technology) course student Saloni Bajirao Jadhav. Please treat this as important and accord your consent. If you need any information about VSI, please be free to contact us or visit us at www.vsisugar.com. We would be grateful to you if you can acknowledge the receipt of this letter and keep our address on your mailing list.

Thanking you,

Yours sincerely,

in your distillery

Dear Sir,

I have a pleasure to introduce to you **VASANTDADA SUGAR INSTITUTE**, a unique organization promoted and funded by cooperative sugar factories in the State of Maharashtra. VSI is engaged in Academic, Research & Development and Consultancy activities related to sugarcane cultivation, manufacture of sugar and allied by-products and pollution control. There are over 160 sugar factories and 80 distilleries attached to this institute to whom we render all kind of technical services.

The institute conducts various post graduate degree and diploma courses intended towards human resource development in the field of sugar, alcohol, alcoholic beverages and allied industry. VSI has started M. Sc. (Wine, Brewing & Alcohol Technology) course affiliated to the Savitribai Phule Pune University from the academic year 2011. The core subjects covers in-depth various aspects of alcohol technology including fermentation, distillation, downstream effluent treatment systems, maturation, blending etc.

The core subjects are supported by other relevant subjects such as (i) Viticulture (ii) Microbiology of Alcohol, Beer & Wine (iii) Biochemistry of Alcohol, Beer & Wine (iv) Chemical Engineering (v) Plant Engineering (vi) Instrumentation (vii) Industrial Waste Management (viii) Business Management etc.

Principal

Vasantdada Sugar Institute
Manjari (Bk.), Tal. Haveli,
Dist. Pune - 412 307

The course is divided in four academic semesters and one in-plant training programme. Emphasis is given on imparting theoretical knowledge as well as practical aspects of brewing, wine making, distilling and bottling unit operations. Eminent scientists, technologists & consultants are invited to deliver lectures on specialized topics.

The Department of Alcohol Technology & Biofuels has excellent infrastructure, sophisticated instruments, well-equipped practical laboratories and qualified and experienced faculty to undertake above-mentioned academic activities. Excellent library and hostel accommodation facilities are also available at VSI campus.

As per syllabus of M.Sc. (WBAT) course, in the IVth semester students have three compulsory subjects and one optional subject depending on their choice in which they wish to pursue their future career. The students are required to undergo in-plant training of three months duration which will start from 1st February to 30th April, 2024. Based on their in-plant training, the students have to submit the in-plant training report to VSI. On the basis of the in-plant training and report, the viva-voce examination is scheduled in the month of May, 2024.

We are looking out for possibilities for in-plant training for our students in reputed distilleries in the country. Your being one of the reputed unit, we would appreciate if you can give permission for three months in-plant training for the M. Sc. (Wine, Brewing & Alcohol Technology) course student Mr. Praveen B Maradi. Please treat this as important and accord your consent.

If you need any information about VSI, please be free to contact us or visit us at www.vsisugar.com. We would be grateful to you if you can acknowledge the receipt of this letter and keep our address on your mailing list.

Thanking you,

Yours sincerely,

Eminent scientists, technologists & consultants are invited to deliver lectures on specialized topics.

The Department of Alcohol Technology & Biofuels has excellent infrastructure, sophisticated instruments, well-equipped practical laboratories and qualified and experienced faculty to undertake above-mentioned academic activities. Excellent library and hostel accommodation facilities are also available at VSI campus.

As per syllabus of M.Sc. (WBAT) course, in the IVth semester students have three compulsory subjects and one optional subject depending on their choice in which they wish to pursue their future career. The students are required to undergo in-plant training of three months duration which will start from 1st February to 30th April, 2024. Based on their in-plant training, the students have to submit the in-plant training report to VSI. On the basis of the in-plant training and report, the viva-voce examination is scheduled in the month of May, 2024.

We are looking out for possibilities for in-plant training for our students in reputed industries in the country. Your being one of the reputed unit, we would appreciate if you can give permission for three months in-plant training for the M. Sc. (Wine, Brewing & Alcohol Technology) course student Ankur Moreswar Mendhe. Please treat this as important and accord your consent. If you need any information about VSI, please be free to contact us or visit us at www.vsisugar.com. We would be grateful to you if you can acknowledge the receipt of this letter and keep our address on your mailing list.

Thanking you,

Yours sincerely,

Subject: In-plant training for M. Sc. (Wine, Brewing & Alcohol Technology) course student in your industry

Dear Sir,

I have a pleasure to introduce to you VASANTDADA SUGAR INSTITUTE, a unique organization promoted and funded by cooperative sugar factories in the State of Maharashtra. VSI is engaged in Academic, Research & Development and Consultancy activities related to sugarcane cultivation, manufacture of sugar and allied by-products and pollution control. There are over 160 sugar factories and 80 distilleries attached to this institute to whom we render all kind of technical services.

The institute conducts various post graduate degree and diploma courses intended towards human resource development in the field of sugar, alcohol, alcoholic beverages and allied industry. VSI has started M. Sc. (Wine, Brewing & Alcohol Technology) course affiliated to the Savitribai Phule Pune University from the academic year 2011. The core subjects covers in-depth various aspects of alcohol technology including fermentation, distillation, downstream effluent treatment systems, maturation, blending etc.

The core subjects are supported by other relevant subjects such as (i) Viticulture (ii) Microbiology of Alcohol, Beer & Wine (iii) Biochemistry of Alcohol, Beer & Wine (iv) Chemical Engineering (v) Plant Engineering (vi) Instrumentation (vii) Industrial Waste Management (viii) Business Management etc.

Reply to be sent on the name of Institute and not on individual's name.
